

Complaint Against

medical
DR. Andreea Matsumura

Social WORKER

MR. Michael House

I only asked Dr. Matsumura, if she could write a letter to the court stating, all the turmoil in St. Helens, and my x-wife not following Stipulated judgment, concerns my health being more stress which affects my Diabetes. Then Dr. Matsumura started to get upset and you are already Diagnosis with Major Depression and After visit, I found out she wrote false information with derogatory comments all over the chart.

False Statements in the Chart dated 2/26/13:

1) "...he refuses to mental health services or care for mental health disorder....

I DO NOT TRUST HOW KAISER TREAS ME AND I KNOW FOR SURE THAT DR. HOUSE HAS BEEN
RELEASING INFORMATION OUTSIDE OF KAISER

.. Dr. House was act strangley especially first time I met him. 15 - 20 min late, keep going out of the room for several times after he start the session. He went to the computer and click something before he start the session. Felt like he was talking little bit louder and talking to some other place to microphone? After that my Judge was Judge Grant and she start referring to Judge Grove since then and disqualify herself. Also he asked me to circle the condition of my mood whether suisidal or how I feel about the future, etc. which is questionnaires but I neve seen it was filed with Medical Record Office for 3 or 4 questionnaires that I filled out and sign. He also never return the realse form that I sign. I also claim that when I asked for another Social Worker in Vancouver or Longview for Social Worker and Phyciatric Physician, Mental Department would keep refusing and refer back to Dr. House. In June 2012, I also talked about the Judge and my computer was hacked, right next day, several web site was linked to UnSafe site picture with Police which I have video and photograph to proof that was happening. Since then it has been more than 8 months but Mr. House called me right next day that I had office visit with Dr. Matsumura. Only one minute call but Dr. House has dignosis me as PHYCHOSIS (Chronic) stating on 2/26/2013, "Reviewd PCP note from her recent office visit with the pt, PCP has multiple concerns, believes that Mr. Okuda likely has MDD with Psychotic Featues, called the patient this AM,

↓ *Agitated*
Continue to page 2

p.2

All mental health treatment states "I'd rather not talk about it, the church will help me", Offered continuing service, declined, offered EPS information Declined. One minute phone call. I do not know what is EPS means and I have already sent complaint letter to Dr. Andrea Matsumura about on July 5th 2012 and received by Kaiser Permanente on July 12, 2012 (see attach) regarding my concern with about the release of information, Dr. House would twist around my statement, leaking out side etc. I also sent emails to Dr. Matsumura regarding Dr. House that I am not comfortable with how Mental Health Department is handing my referrals. They would keep twisting around as well as Dr. Matsumura. Dr. House would keep coming back especially after 8 months and called me and again twisted around and diagnosis with MDD with Psychotic Feature / Psychosis. Also stated "Since he is declining treatment in this department I am not able to comment on risk of hospitalization, self harm, or any behavior that may be associate with Psychosis." and also stating "I will assess for a higher level of care, safety issues, risks related to decompensation, and any risk of harm to others. This is right after Dr. Matsumura spoke to him otherwise he would not call me. Dr. Matsumura has made a lot of false statement in her chart including derogatory comments. I have underlined in her chart where she is making false statements, make ups and twisted around the conversation we talked. ... "He denies any visual hallucinations but states some times he hears other people in his home that tell him what his problems are"... made really sound like I am Psycho and have severe mental problem. Almost all statement she made was Created by Dr. Matsumura. She informed me she is not a position to write letter about disruptions/interruptions from my ex-wife on parenting and about a group of people in St. Helens causes stress and effect Diabetes is not her area to diagnosis because she is not mental expert and she kept referring to Mr. House (Social Worker at Kaiser Department) Dr. Matsumura has stated "MDD is a diagnosis he has carried I believe he may have psychotic features as well and GAD has been diagnosed DM2 Insight is poor with GAF of 40....I get strong impression that she has lining up all the Mental Diagnosis that she can put sounded really bad. She has started and finalize my diagnosis with Mr. Michael House.

Dr. Matsumura has Disciplinary action on August 9, 2010 by Medical Board, alleges violations of the Medical Practice Act (state Law) requiring allegations of unprofessional or dishonorable conduct; gross or repeated negligence; and prescribing a controlled substance without a legitimate medical purpose or following accepted procedures. Also She has Malpractice claim? Please refer to Medical Board Dr. Matsumura's License Record.

→ In April to May, keep ordering HIV testing without my consent and without talking to me. I found out before giving a blood to Kaiser Lab and found out because I was more suspicious about doctors and social workers getting strange. I am also realize that in last 3 months, I notice that there is EPIC system that they share all the patient records between the hospitals including not just Medical Records that can get by Patients and third party with Patients consent, but also internal doctor's and nurses notes that Patients have no access of. One doctor at Legacy, mentioned repeatedly "I am not going to write" after I asked her few times what is said in Internal Patient Record that you can access?

I certify that the above information is true to the best of my knowledge.

Fwd: My Denture Broke that was made in November 2012.

1 message

Okuda Aaron Yoshihito <aaron.okuda@gmail.com>

Thu, Feb 21, 2013 at 5:22 PM

To: Suzanne.M.Pentheny@kp.org

Dear Ms. Pentheny;

I went to Interstate Dental Office on Feb. 20th. Dr. Umber refused to fix unless I pay for the new denture which is over \$3000?

Dr. Umber mentioned identify as temporary denture on both 2 dentures that I showed. One with Temporary and another one is for

final Denture. After I explained to him the one is broked was final denture. I explained to him which I have explain to you by email on Feb. 12th. Then he twisted around and said you agree to go with this denture type when I had an option comparing with metal one.

However, Dr. Hill explained to me that the denture that I have now is more easy on natural teeth that I have so we both agreed.

He did not mentioned that it will break in 3 month or less than year or If you are in my situation how would you feel, especially

it broked in less than 3 months. DeAnna never mentioned that once insurance is interrupted, even it broke we will not fix it.....

I have gave reason to you and Customer Service that reason I have to terminate once is because I wanted to see other Counselor in Mental Health because I did not have good experience with Kaiser Mental Health department that my health information was shared outside of Kaiser, not for treatment purpose.

My plan was to apply Dental Financial Assistant and put 3 Crowns on right lower back teeth. It is tight budget now because it dropped down to \$2000 and I can apply every other year. with Dental Membership, it will be \$3000.00 Now I do not know if I can fix it.

In Addition, DeAnna said she will charge \$10 extra for office visit instead of \$35. also she will charge for visit with Dr. Umber.

I only talk to 2 or 3 minutes because he informed that he will charge for new denture. There is no sense of discussing with him, so I left and went to your main office in Multnomah Blvd. I heard you are at Oregon City Dental Office, so I drove down to your office but it was closed.

I would very much appreciate it if you could kindly resolve this issue hopefully in 10days.

Sincerely yours,

Aaron Y. Okuda

Progress Notes

Matsumura, Andrea L, MD 2/26/2013 5:25 PM Signed

No chief complaint on file.

Aaron is a 56 y/o man with h/o MDD and anxiety as well as DM2

He is on SSD for mental health conditions

He comes in today with a large stack of court documents

He has ongoing issues with the custody of his daughter

→ I Refuse Because of MR. House LCSW → see attach for more detail

He is requesting I write a letter stating the stress of this is negatively impacting his chronic medical conditions

* Legacy seems to have internal Patient Data base → networking with Kaiser ↔ OHSU ↔ Providence

→ I am concerned b/c he refuses mental health services or care for mental health disorder

He is delusional and feels his medical records are "leaking" everywhere which is why when he goes to Legacy they have security guard by his room → it is not from Kaiser.

He feels somehow Kaiser is talking with his judge and telling the judge he is not a fit parent

He does love his daughter but has had several issues with custody

He believes if I write a letter stating his health is worse due to custody battles they will leave him alone and his ex wife will no longer pursue legal issues

Today he is disheveled, smells clothes are ripped and his speech is pressured

He believes we can "save" him and we are simply not acting on it.

→ I don't understand this meaning

His suspicions of Kaiser leaking his medical records to the judge and the delusion he can be saved with letters from doctors are very alarming → not understanding?

He denies any visual hallucinations but states sometimes he hears other people in his home that tell him what his problems are.

is not make sense to me → I never said this.

I believe Aaron would do well if he sought out mental health services but he refuses stating they think I'm crazy and they just tell the judge everything and they are against me.

MDD is a diagnosis he has carried I believe he may have psychotic features as well and GAD has been diagnosed

DM2

Insight is poor with GAF of 40

DR. Matsumura seems to be very unpleasant
 the whole story does not make sense they are

MR. House added

"Psychosis"

as Diagnosis.

after I filed complaint against him with Kaiser and had Disagreement

and don't about He has leaking my med. mental information to outside Kaiser.

→ It is from Legacy I believe it started out from Legacy in St. Helens working with My wife Attorney + Dts?

→ I did not mentioned to her

I said Because of ex wife violations of Parenting & a group of people

Fire back or trap me I get more stress

↓ Cause Anxiety so, I believe this will effect my diabetes and my health

In addition, I reached out to the manager of the North Interstate Dental Office to address your concerns about not receiving your full dental records as requested. She indicated that her department received a request for X-rays but not for your complete dental records. She stated that after receiving your current request, she duplicated all of your records and they were mailed to you on March 8th.

You also mentioned that you never received an application for enrollment after contacting Membership Services in December of 2012. I did speak with a Membership Services manager regarding your concern. She stated that you contacted Membership Services on December 7th to request a copayment summary. She stated that you asked to speak with a supervisor because your request could not be completed over the phone; however, you terminated the call before a supervisor could be reached.

Mr. Okuda, you shared with us that your mental health information was shared outside of Kaiser Permanente Foundation Health Plan of the Northwest. Please be assured that I have forwarded your concerns to the Kaiser Permanente Regional Privacy Program Manager and the Regional Manager of Investigations and Training in the Integrity, Compliance and Ethics Department as information to use in their investigation and review process.

We're truly sorry that our dental program has not met your expectations. I hope this letter has provided you some reassurance that your concerns have been heard.

As of March 13th, we have completed our review of your concerns within the grievance process. If you have any questions regarding this letter, you may call me Tuesday through Friday from 6:00 a.m. to 4:30 p.m. at the number on the following page.

In addition, you may call Membership Services from 8:00 a.m. to 8:00 p.m., seven days a week, toll free at 1-877-221-8221 with general questions or for help with benefits or coverage issues. For TTY users, please call 1-800-735-2900. For free language interpretation services, please call 1-800-324-8010.

Subject: My Denture Broke that was made in November 2012.

To: Suzanne.M.Pentheny@kp.org

Cc: Debra.R.Porter@kp.org, jody.J.Meyer@kp.org

Dear Ms. Pentheny;

My denture broked early January 2013. It was made in Oct 2012. I had several adjustments and I informed Dr. Hill

that it has been keep dropping and I had a concern with how it was designed. The wire on the Denture was not same place as temporary Denture.

Even after they correct the wire, it still keep dropping off. Because of Mental Department Issue, I had to change my Medicare plan once, so I was planning to see the treatment with Mental Clinic. In Dec. 2012, I asked Member Service to send me new application for Kaiser Enrollment whcih I did not received.

Finally, I was able to enroll again with Kaiser from Feb 2013. My Denture only last 3 months. Last December, one of the wire that holds Right upper teeth

broked. During the Adjustments from Oct-Nov 2012, I did address several times about the problem with this Denture and I even asking about redesign of the denture.

NOW IT BROKED. After my enrollment was cofirmed, I spoked to Dr. Callahan at Cascade and she forwarded to Interstate Office. They wanted to take another a week to review.

Luckly I have temporary Denture, but it is still uncomfortable, because it thick. I was planning to have Lower Crowns made with Dr. Callahan this year.

I would very much appreciate it if you could kindly help remake this Denture with new Design that it will not keep falling down and BRAKE.

Thank you very much for your consideration and help.

Kind Regards,
Aaron Y. Okuda

*Refuse
 to Refer
 another
 counselor*

As I informed you many times that I am not comfortable how Mental Health Department is handling my referral. I specifically requested to be refer to Counselor in Vancouver or Longview WA and I though you made that referral about 3 months Ago. Meantime, I tried to have counselor at other resource, but Did not work out so I tried to get referral thorough Mental Health Department. They refuse to do so. I met supervisor At Patient Check in at Interstate Central and contacted your office for referral Because Member service or Patient Check in staff was not Able to contact people in your office for referral. After supervisor contacted you fro referral, Mr. Micheal House Called and left the message and said he received request on referral For psychiatrist medication Evaluation. He informed me to Contact primary physician which is you. I made an last two Appointments for my allegy (cold). However, you made a referral to Psychiatrist Medication evaluation.

Aaron,

The length of your e-mail is beyond what we can help you with in an e-mail encounter
 I ordered a psychiatric evaluation by a psychiatrist, this may involve a medication evaluation. It is not simply a medication evaluation.
 It is best you see a psychiatrist who can help you
 If you would prefer to be seen in Washington you need to let the mental health department know

As I have informed you on Oct 16th, I am not comfortable with referral that I did not ask any referral on Psychiatric Medication Evaluation. I never stated this referral and Kaiser Counselor, Mr. Mike House has left the message in my voice mail that he received Psychiatric Medication Evaluation and he can not refer but your primary doctor can. Then when I went to your office, you refer me to Psychiatric Medication Evaluation. After I informed you that Mental Department did not respond to my call, they called me yesterday on Oct 19th, but they were trying to refer me to Psychiatrist at Interstate, same location as Dr. House is. I did informed you more than few times that I want to refer to either Vancouver or Longview location. I also when I request for referral to Mental Health department last week at patient check in manager, I did specifically requested to refer me to Vancouver or Longview location. They keep not allowing me to see any one in Vancouver or Longview side.

possible Party

Int

July 5th 2012

To: Kaiser Permanente
Administrative Office/Mental Health Department

I have asked Ms. Kelly Tucker at Members Relations to Revoke/Cancel my Protected Health Information to be disclose or use for my treatment last month. Dr. House asked me to sign the document regarding exchanging my information to outside of Kaiser for my treatment at his office on October 5th, 2012 at first initial consultation. I also signed another document at front desk on 2nd Floor. However, it seems like It has not been revoked. Dr. House has twisted and made false word on my statement that I never used which I believe that it causes to have great effect on my reputation with the court. I also found that there was false statement on initial consultation which I have contacted Medical Record Office to exclude/clear those statement. The Judge informed me that I do not have to see counselor anymore when I had a hearing on June 15th for selecting summer parenting time. The judge does not know that I was going to see Dr. House but he knew. On the other hand Dr. Matsumura informed me that I need to see counselor. I have asked Dr. House to give me a copy that I signed few days later from an initial consultation. I have also asked him few times after that but he never gave me a copy, so I was not able to confirm what was exactly stated in the document but at least I know that it is for something the counselor or Kaiser can discuss or release my information about me. In October/November, I have obtained full copy of Medical Record and I am not sure if this is correct one because there should be two documents that I signed at his office on Oct 5th, 2011 and at the front desk right near elevator on 2nd floor. Please kindly Revoke/Cancel my all the documents that I signed on October 5th, 2011 at an initial consultation.

In addition, please kindly provide all the places he has contacted and also contacted by outside of Kaiser. Also please kindly summarize the what was about.

Thank you very much.

Kind Regards,

Aaron Y. Okuda

Description: 55 year old male

Provider: Michael House, LCSW

Department: Ein-Psyc

Diagnoses

ANXIETY DISORDER - Primary	300.00
STRESS	308.9
MAJOR DEPRESSION, RECURRENT, MODERATE	296.32

Vitals Recorded in This Encounter

No data found.

Progress Notes

House, Michael Arthur, LCSW 1/4/2012 5:34 PM Signed
Session Four

Fifty minutes spent in face to face counseling for psychiatric care and treatment planning. Chart records are selectively reviewed for today's encounter

Burns Brief Mood Survey

Depression: 10 very high: Symptoms: feeling sad, inadequate, loss of pleasure

Do You Have Any Suicidal Thoughts? na

Would You Like To End Your Life? na

Will You Act On Thoughts To End Your Life: na

Anxiety: 12 very high Symptoms: worried, tense, nervous.

Anger: 12 very high

Relationship Satisfaction: 13, moderately dissatisfied.

s/o Pts focus: over detailing information regarding legal/court actions concerning custody/social security, problems.

One of the patient's most important skills is that he maintains a highly organized approach for his primary goal in life-"more just custody of my little girl and I want Social Security to give me the money (from my disability), so I can manage it".

Pt is alert, oriented, interactive, with insight and positive therapy response. Overall goal is reduction in depression and anxiety symptoms. Other treatments e.g. group, are not appropriate because he is focused solely on the activities mentioned in this note. Housing concerns-will need to move soon. continued support from his church; attended a holiday retreat in Silver ton.

Pt continues to present as a deeply caring individual. He demonstrates an ability to gain an understanding of his problems and at least consider problem solving approaches for stress management.

a: Depression

Anxiety Disorder.

Multiple diagnoses represent symptoms that have been present for two years or longer.

Medication - Data not available
 Patient History - macy
 Panel Studies - ed: No gaps identified.

Session Number: ongoing treatment

Subjective

Mr Okuda rambles a bit when he summarizes numerous aspects of his life that are quite stressful- parenting/school issues, housing issues, and an assortment of other legal concerns. At times Mr. Okuda, who always presents as a very pleasant fellow, appears somewhat disorganized in his thinking. His reason or goal for coming in today is also a bit confusing. It appears that he is asking for assurance that he isn't "crazy". He states: "mostly my problem comes from a group of people in St Helens and my ex wife, disruption, manipulate me, make me bad guy" While Mr. Okuda (as he personally recognizes), is disabled due to mental illness, I do not have any indication that he is not able to function in daily life. Problem solving, at times, appears quite minimal. During each session the pt always describes his love and care for his young daughter.

I have explained to Aaron that I am not able to provide any type of assessment-parenting, school, or anything else.

While I have agreed to see Mr. Okuda as requested for support, I have not identified the medical necessity of seeing him on a regular visits. Insight is on the low side. I do not believe that the patient is psychotic, or that he requires a higher level of medical care.

Effective Date	End Date	Order Type More Info
07/12/2012	07/12/2012	Order Terminating Corrective Action Order On July 12, 2012, the Board issued an Order Terminating Corrective Action Agreement. This Order terminates Licensee's April 7, 2011, Corrective Action Agreement.
04/07/2011	07/12/2012	Corrective Action Agreement Licensee entered into a Corrective Action Agreement with the Board on April 7, 2011. In this Agreement Licensee will complete a pain management course and undergo a minimum of two chart audits of chronic pain patients. Licensee will develop and present three sessions on improvement in opiate therapy. Licensee will undergo a practice review by her employer focused on her opiate patients. Licensee will meet monthly with her employer's for a minimum of one year, with quarterly reports to the Board. View Order
08/09/2010	04/07/2011	Complaint and Notice The Board issued a Complaint and Notice of Proposed Disciplinary Action on August 9, 2010. This document alleges violations of the Medical Practice Act (state law) regarding allegations of unprofessional or dishonorable conduct; gross or repeated negligence; and prescribing a controlled substance without a legitimate medical purpose or following accepted procedures.

Prior Complaint

MALPRACTICE

Malpractice claim information is compiled by the Oregon Medical Board from claim reports it receives from primary insurers; public bodies required to defend, save harmless and indemnify an officer, employee or agent of the public; a self-insured entity; or a health maintenance organization. Claim reporting and disclosure requirements are governed by ORS 742.400.

The settlement of a medical malpractice claim may occur for a variety of reasons that do not necessarily reflect negatively on the professional competence or conduct of the provider. Therefore, there may be no disciplinary action appearing for a licensee, even though there is a closed malpractice claim on file. A payment in the settlement of a medical malpractice action does not create a presumption that medical malpractice occurred. This database represents information from reporters to date. Please note: Not all reporters may have submitted claim information to the Board.

Your Kaiser Permanente Care Instructions

Sinusitis: After Your Visit

Your Care Instructions

Sinusitis is an infection of the lining of the sinus cavities in your head. Sinusitis often follows a cold and causes pain and pressure in your head and face.

Antibiotics can help cure sinusitis caused by bacteria. You should begin to feel better within a couple of days, but some symptoms may last for a month or more. If your doctor thinks that you have a bacterial infection, he or she will probably prescribe antibiotics.

KAISER PERMANENTE

March 13, 2013

Aaron Okuda
36050 Pittsburg Road 12
Saint Helens, OR 97051

RE: Aaron Okuda
HR: 6350-46-51

Dear Mr. Okuda:

Thank you for your February 22, 2013 letters, in which you described your concerns about dental services you received at Kaiser Foundation Health Plan of the Northwest. This letter is in response to your complaints (which Medicare defines as grievances).

It's important for us to hear when our members are disappointed with any aspect of our program because it helps us stay in touch with how well we are measuring up to the high standards we have established. We appreciate the opportunity to respond to your concerns.

After reading your letter, I shared your concerns about the care you received at the North Interstate Dental Office with that building's practice director. This doctor of dental surgery will use your experience to identify ways to improve the care we give our members.

In addition, we have forwarded your letter to our Quality Department for further review. While the results of this investigation remain confidential, please be assured that we conduct a thorough investigation.

We also want you to know that you have a right to pursue an independent review of your care concerns.

Quality Improvement Organization

If you are concerned about the quality of care you received, including care during a hospital stay, you can also complain to an independent quality review organization called the QIO.

What is a QIO?

The QIO is a group of health care professionals who are paid by the federal government. They are not part of Kaiser Permanente. There is one QIO in each state. The name of the QIO differs depending on which state you are in.

My Denture Broke that was made in November 2012.

1 message

Okuda Aaron Yoshihito <aaron.okuda@gmail.com>

Tue, Feb 12, 2013 at 12:16 PM

To: Suzanne.M.Pentheny@kp.org

Cc: Debra.R.Porter@kp.org, jody.J.Meyer@kp.org

Dear. Ms. Pentheny;

My denture broked early January 2013. It was made in Oct 2012. I had several adjustments and I informed Dr. Hill

that it has been keep dropping and I had a concern with how it was designed. The wire on the Denture was not same place as temporary Denture.

Even after they correct the wire, it still keep dropping off. Because of Mental Department Issue, I had to change my Medicare plan once, so I was planning to

see the treatment with Mental Clinic. In Dec. 2012, I asked Member Service to send me new application for Kaiser Enrollment whcih I did not received.

Finally, I was able to enroll again with Kaiser from Feb 2013. My Denture only last 3 months. Last December, one of the wire that holds Right upper teeth

broked. During the Adjustments from Oct-Nov 2012, I did address several times about the problem with this Denture and I even asking about redesign of the denture.

NOW IT BROKED. After my enrollment was cofirmed, I spoked to Dr. Callahan at Cascade and she forwarded to Interstate Office. They wanted to take another a week to review.

Luckly I have temporary Denture, but it is still uncomfortable, because it thick. I was planning to have Lower Crowns made with Dr. Callahan this year.

I would very much appreciate it if you could kindly help remake this Denture with new Design that it will not keep falling down and BRAKE.

Thank you very much for your consideration and help.

Kind Regards,

Aaron Y. Okuda

 To: Aaron Y Okuda
 Subject: RE: Part 5 last

Aaron,

The length of your e-mail is beyond what we can help you with in an e-mail encounter
 I ordered a psychiatric evaluation by a psychiatrist, this may involve a medication evaluation. It is not simply a medication evaluation.

It is best you see a psychiatrist who can help you

If you would prefer to be seen in Washington you need to let the mental health department know

Andrea L. Matsumura, MD

 To: Andrea L. Matsumura, MD
 Subject: Part 5 last

As I have informed you on Oct 16th, I am not comfortable with referral that I did not ask any referral on Psychiatric Medication Evaluation. I never stated this referral and Kaiser Counselor, Mr. Mike House has left the message in my voice mail that he received Psychiatric Medication Evaluation and he can not refer but your primary doctor can. Then when I went to your office, you refer me to Psychiatric Medication Evaluation. After I informed you that Mental Department did not respond to my call, they called me yesterday on Oct 19th, but they were trying to refer me to Psychiatrist at Interstate, same location as Dr. House is. I did informed you more than few times that I want to refer to either Vancouver or Longview location. I also when I request for referral to Mental Health department last week at patient check in manager, I did specifically requested to refer me to Vancouver or Longview location. They keep not allowing me to see any one in Vancouver or Longview side.

sponsible Party

Always Refuses to Refer to Vancouver or Longview Doctor Social Worker

Session Three

Fifty minutes spent in face to face counseling for psychiatric care and treatment planning. Chart records are selectively reviewed for today's encounter.

s/o Mr. Okuda reports that he is not quite so anxious today, self rating at mild. Reviewed community and individual support for housing, church, and most importantly parenting experiences. Aaron's life appears to be focused on the very high quality relationship with his little girl. Today Mr. Okuda is very alert, focused, no evidence of paranoia, thinking disorders, or Axis II symptoms.

Broad affect with humour; positive relationship with this writer. Treatment focus will be supporting the parts of life that are working quite well for Mr. Okuda, parenting is daughter so well accounts for the reduction in anxiety symptoms.

Patient obtained previous mental health chart notes from this provider; he requested several corrections and this is accomplished by an Addendum to our first session.

a: Anxiety Disorder

plan: schedule for the end of December; decide on number of remaining sessions, and treatment goals, in the December session.

Actually Not Completely Deleted which is the Negative Impression

Progress Notes

Matsumura, Andrea L, MD 2/26/2013 5:25 PM Signed

No chief complaint on file.

Aaron is a 56 y/o man with h/o MDD and anxiety as well as DM2.

He is on SSD for mental health conditions

He comes in today with a large stack of court documents

He has ongoing issues with the custody of his daughter

→ I Refuse Because of Dr. House LCSW → see attach info more detail

He is requesting I write a letter stating the stress of this is negatively impacting his chronic medical conditions

* Legacy sent into the Internal Patient Data base → networking with Kaiser → OHELLE → Providence

→ I am concerned b/c he refuses mental health services or care for mental health disorder working with my wife Attorney + DTS?

He is delusional and feels his medical records are "leaking" everywhere which is why when he goes to Legacy they have security guard by his room → it is not from Kaiser

He feels somehow Kaiser is talking with his judge and telling the judge he is not a fit parent

He does love his daughter but has had several issues with custody

He believes if I write a letter stating his health is worse due to custody battles they will leave him alone and his ex wife will no longer pursue legal issues

Today he is disheveled, smells clothes are ripped and his speech is pressured

He believes we can "save" him and we are simply not acting on it.

→ I don't understand this meaning

His suspicions of Kaiser leaking his medical records to the judge and the delusion he can be saved with letters from doctors are very alarming → not understanding

He denies any visual hallucinations but states sometimes he hears other people in his home that tell him what his problems are.

→ I never said this.

I believe Aaron would do well if he sought out mental health services but he refuses stating they think I'm crazy and they just tell the judge everything and they are against me.

MDD is a diagnosis he has carried I believe he may have psychotic features as well and GAD has been diagnosed

DM2

Insight is poor with GAF of 40

Dr. Matsumura seems to be very unpleasant with me and story does not make sense they are

right after reference letters, Certificate
letter
Affidavit was Filed
by Ms. Carol Judge Grove's
Paralegal +
2/26/13

MR. House added

"Psychosis" as Diagnosis.

after I filed complaint against him with Kaiser and had Disagreement and doubt about He has leaking my med. mental information to outside Kaiser

It is from Legacy I believe it started out from Legacy in St. Helens working with my wife Attorney + DTS?

→ I did not mentioned to her

I said because of ex wife violations of Parenting a group of people

Fire back I get more stress

↓ Cause Anxiety so, I believe this will affect my diabetes and my health

So I believe

Int

63504651

July 5th 2012

To: Kaiser Permanente
Administrative Office/Mental Health Department

I have asked Ms. Kelly Tucker at Members Relations to Revoke/Cancel my Protected Health Information to be disclose or use for my treatment last month. Dr. House asked me to sign the document regarding exchanging my information to outside of Kaiser for my treatment at his office on October 5th, 2012 at first initial consultation. I also signed another document at front desk on 2nd Floor. However, it seems like It has not been revoked. Dr. House has twisted and made false word on my statement that I never used which I believe that it causes to have great effect on my reputation with the court. I also found that there was false statement on initial consultation which I have contacted Medical Record Office to exclude/clear those statement. The Judge informed me that I do not have to see counselor anymore when I had a hearing on June 15th for selecting summer parenting time. The judge does not know that I was going to see Dr. House but he knew. On the other hand Dr. Matsumura informed me that I need to see counselor. I have asked Dr. House to give me a copy that I signed few days later from an initial consultation. I have also asked him few times after that but he never gave me a copy, so I was not able to confirm what was exactly stated in the document but at least I know that it is for something the counselor or Kaiser can discuss or release my information about me. In October/November, I have obtained full copy of Medical Record and I am not sure if this is correct one because there should be two documents that I signed at his office on Oct 5th, 2011 and at the front desk right near elevator on 2nd floor. Please kindly Revoke/Cancel my all the documents that I signed on October 5th, 2011 at an initial consultation.

In addition, please kindly provide all the places he has contacted and also contacted by outside of Kaiser. Also please kindly summarize the what was about.

Thank you very much.

Kind Regards,

Baron T. Okuda

Base on

Pre-Trial Hearing Court - MAY 17TH 230PM

DR. Matsumura +
MR. House's false
Diagnosis

Request for Robert Schwirse who confronted with me in the past 3 times. Asked Judge to excuse him from the court but Judge Denied.

Exchange place changed to Sunset Park Parking Lot on Holidays?
All the person stays in the car.

Judge ordered? Me to see Mr. James Good ^{man} for counseling (Child Counselor?)

They want Expect me to have one bedroom for privacy. Who pays for the cost for one bedroom? No respond. Eventually Judge wants me to get one bedroom. I pay \$250 per month for the rent. This is only one place where I can get it. HUD supports. In the market \$550 - \$650 for one bed room. Judge informed me that try to see if I can ask HUD to get one bedroom.

NOTE: I have been trying to get. Not easy.
applied NOAH requested 2 Bedroom Apt. No Fund. hopefully
By end of year

Cathleen: First Right of Refusal when Mieke stays someone's house

Informed the judge that Mieke stays overnight with her friend and should be Respect to her. Informed Judge that Mieke told me that when she stayed with Boy, the mother allowed her to sleep with a boy.

When changing the cloths at public place try best to change. She can go out when I changing. Callahan wants me to change cloths not in the front of the child. They were asking Judge to not to have overnight visit until I get one bed room. Judge told her I can use bathroom.

Counselor at CCMH informed Use Best Judgement
some place not safe without the sight. - Need to be watch
eye

They want me to use separate phone put in Mieke's school bag at home. Callahan was anxious to leave in the house. Informed Judge why? It might have tracking device? It was very strange. Judge allowed that I need to carry when Mieke is with me.

She does not want to have Mieke going to retreat. Limited
To 2 times a year. Judge no comment.

Court Order:

1. Exchange at Sunset Park
2. See James Good ^{man} at CCMH Columbia County Mental Health
3. Carry phone that is provided.

Complaint against
DR. PRASANNA Krishnasamy

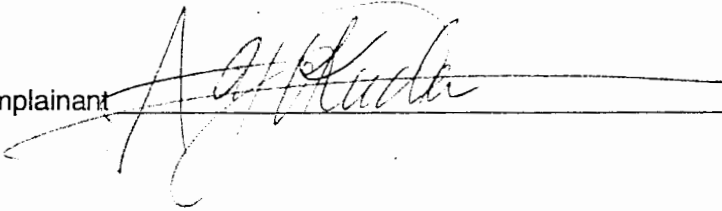

1)

On January 14th, 2011, Dr. Prasanna Krishasamy orderd and tested with out consent according to Disclosure of confidential HIV test Information may require specific written authorization of the indiidual. OAR 333-012-020 (9) (a) (b). Also he did not discuss anything about he is going to, or advice me to have HIV testing. He did the testing with hiding. I just found out while I was trying to file complaint against Kaiser Doctors, Dr. Kono, Dr. Matsumura, and Hurtlely Jon who originaly order on April 19th, 2013 and found out right before I gave my blood for Diabetes screening.

I strongly believe that Dr. Krishasamy may have respond to all the notes in Legacy Internal Patient Record originally started from Legacy St. Helens by doctor who treats my Daughter Marie Mieko Okuda and Office Manager name Joyce. I recently found out Office Manager, Joyce may have involved in covering up Mieko's mother neglect Medical Attention when mother did not take her to School. Please refer to Madalene C Anderson FNP at Legacy Medical System St. Helens' Clinic in St. Helens, Oregon on January 15th 2013. (Copy of Complaint to Board of Nursing). In addition, this is also associate with Dr. Krishasamy, Prasanna ordering without my consent to test HIV when blood was drawn for other Lab test and coflict with Dr. Krishasamy that I filed complaint against him for being late for medical appointments for 30min-1 hrs wait which caused me to cancel and reschedule my other appointments including other doctor's visits and not following up referrals. (Ref to other complaint against Dr. Krishasamy, Prasanna). I strongly believe that all those problems are associate it with a group of people in St. Helens Oregon who against me which involves my Child Custody matter.

I certify that the above information is true to the best of my knowledge.

Complaint Against DR. PRASANNA KRISHNASAMY

2)

Dr. Prasanna Krishnasamy fail to refer reasonal time to Back Surgeon. Keep failing to refer to doctors who does not accept OHP or Care Oregon. However, I had to keep asking. One time I was able to make appointment with one surgeon but I got sick and called in for reschedule but the receptionest at that doctor informed me she will call me, but never called. Informed Dr. Krishnasamy. However that doctor treated as NO SHOW so, he did not want to see me. Dr. Krishnasamy arranged with MA to find doctor, but found out he does not take OHP or Care Oregon. MA was got rude and said the problem is you have OHP. She may have bad comments about me as well as Dr. Krishnasamy in their internal patient record that only doctors and nurses can look. He also refer to Dr. O'Neill at Barns Rd in Portland but he also does not take. I informed Dr. Krishnasamy to why can't he refer to OHSU? finally he refer to OHSU with Dr. Johnny Delashaw. If I am not mistaken, Surgery date was July 19th, 2011. I was asked to come to OHSU hospital several hours before surgery that I found out the time of Surgery in the waiting patient room in 7th floor? I was directed to Office room where large window where people can see inside. Curtain was wide open so I had to wait and ask staff for close the curtain because there was no privacy. Then after I changed to Patient Gown, OHSU Staff took all of my personal belongings including my laptop. He made me across the Lobby to an Elevator where there were more than 20 people in lobby area and people are go in and out. I was crossing over with Patient Gown. Then I went up to 7th floor by an elevator. they directed me to patient waiting room. It took awhile to find out what time is Surgery time. 30 min or so? Nurse did not respond right a way with few attempts to find out. After I discover there is several hours that I had to wait for the surgery, I asked the Head Nurse at the Nurse Station. She would say they have to follow protocol and had to wait 1 hour, then I had to go back and asked again. another 15 min. passed by then Went to see Head Nurse. She would keep making difficult and keep asking. Another Nuse called Police. Two Police Officer came in to patient waiting room after I had conflict with head nurse. They alleaged that I was raising my voice. the Nurse station area get to be loud

because the voice bounced and gets louder. Two Police officers came in to my Patient Waiting Room. I explain to them what happen. The nurse would not let me go righ a way when I decided to leave Surgery Waitning room and the Hospital and I informed the police officers to release me. Dr. Delashaw's assistant or student doctor came and she also wonder what the Nurse is saying by they have to follow Protocol. I was very unconfortable so I had to leave. I did not mind if Dr. Delashaw is performing surgery, but I had very concern with the Nurses if they are really going to take care of me after the Surgery, if they humiliate and abusive. After all how several Doctors, Nurses and Social Worker, and Office Manager at St. Helens Legacy Clinic treat me, I felt it must be started from Legacy St. Helens Clinic Office manager name by Joyce and/or FNP and/or Doctor for my daughter because I know for sure that they work with DHS Child Welfare and/or Ms. Cathileen Callahan, an attorney for Mieko's mother, Ms. Caroline which involves custody matter. Ms. Callahan is known for Game Player and twisted around the facts and makes false statements. I Strongly believe that Dr. Krishnasamy also involve in this matter that he might release or comment negative information about me, especially after we had conflict and after I made complaint against Dr. Krishnasamy for always being late by 30min. or 1 hrs for more than 10 times and at least twice, I had to reschedule one to two appointments on another day so I had to make additional trips for those appointments. I also complaint about lack of referral in timely manner and fail to follow up. It seems like Legacy is the hospital that if I complaint I will get revenge and/or fire back at me, especially when there is negative comments written by some one who is in a group of St. Helens, Oregon. I have spoken to Patient Relation Manager about those issue with Dr. Krishnasamy and about St. Helens Legacy Clinic because one of the NURSE name by Craig?, nurse for Dr. Eric Murry.

If Medical Board can also send all of my complaints including FNP and their Office Manger, Joyce at St. Helens Legacy Clinic, please forward my complaint to an appropriate Agency for Hospital Management. For Dr. Krishnasami's being late, please find the records on appointment and log in time form patient record (EPIC?) you can find how late.

I certify that the above information is true to the best of my knowledge.

DOB: 11/4/1956, Sex: M
Enc. Date: 06/10/11

Progress Notes (continued)

Plain films: none

CT scans: none

MRI scans: L4-5 moderate lumbar stenosis with degenerative disc disease at L4-5.

Assessment: Neurogenic claudication and back pain secondary to lumbar stenosis.
This pain has been progressive and will not improve without surgery.

Plan:

L 4-5 laminectomy. A complete discussion regarding the surgical procedure planned was discussed. This included a description of the procedure in detail and the risks and benefits of the surgery. All questions solicited were answered. This discussion included risks of anesthesia, cardiac and pulmonary risks, infection, stroke, and neurological deficits. The patient has agreed to surgery. We will attempt to get approval from OHP and then schedule surgery.

I performed a history and physical examination of the patient and discussed his management with the resident. I reviewed the resident's note and agree with the documented findings and plan of care.

Comment: on INH prophylaxis, doing well

Plan: Check CMP

Follow-up in 4 weeks to f/u on DM and Lipids.

Subjective

Patient ID: Aaron Y Okuda is a 54 y.o. male who comes in for neck and shoulder pain, bilateral x 2-3 months, but worse in the last several weeks. Denies any injury but feels that his job as a caregiver could have caused it. Associated symptoms include: neck stiffness and difficulty sleeping. Denies cervical radiculopathy or gait problems.

Lumbar spinal stenosis - PRASANNA V KRISHNASAMY, MD 5/17/11 12:46 PM Signed

Aaron continues to have chronic low back pain which waxes and wanes. Had few PT sessions recently and his low back has not been bothering him as much. He has associated lumbar radiculopathy, right more than left. Denies weakness in legs, bowel or bladder issues, or saddle anesthesia. Continues to take Cymbalta. MRI in Oct 2010 at Providence showed moderately severe lumbar spinal stenosis and bilateral lateral recess stenoses at L4-5 level. He is yet to follow-up with

Neurosurgery as recommended.

Latent tuberculosis - PRASANNA V KRISHNASAMY, MD 5/17/11 12:49 PM Signed

Aaron was diagnosed with Latent TB based on PPD (24 mm) in July 2010. CXR in Aug 2010 was negative. He never really had active symptoms of tuberculosis. He was started on INH prophylaxis in Jan 2011 and has been taking it regularly along with Pyridoxine, tolerating well. Denies fevers, chills, abdominal pain, nausea, or jaundice.

HPI:

DM - he isnt able to tolerate the metformin becuae of nausea and persistent diarrhea

Back pain - met with a family doc in portland and had an MRI on 10/14. impression below from the provicence system. he is interested in referral to back surgeon ★

IMPRESSION- 1. There is advanced multilevel disc and facet degeneration. 2. At L4-L5, there is a moderate to moderately severe central canal stenosis including significant bilateral lateral recess stenoses. The left lateral recess stenosis appears slightly worse than on the right. There are also severe bilateral L4-L5 foraminal stenoses. 3. Severe left L5-S1 foraminal stenosis. 4. Additional central canal and foraminal stenoses are identified at L1- L2 through L3-L4, and at L5-S1, mild to moderate in grade.

MEDICATIONS: Reviewed and updated in E chart

ALLERGIES: Reviewed and updated in E-Chart

VITAL SIGNS: stable per flowsheet

GENERAL: Alert and well nourished

ASSESSMENT AND PLAN:

back pain with arthritis, foramenal and spinal stenosis. discussed the treatment options and he would like to see the surgeon

DM - unable to tolerate the metformin. discussed options and will continue with glipizide. will follow sugars and repeat Alc in 1 month

25 min spent with pt counselling on these topics.

Eric Murray MD

9am - 10:30am Dentist Appointment with Dr. Lee at Cascade Park

Received Lab Test on Diabetes monitoring test By Antonio Daniels MD. However, there is no information Regarding HIV testing.

11:18am Spoked to Maribeth L. Markeson

Interstate Phlebotomy team Supervisor

Pre-analytical Technical Special Original Lab Test Slip was taken by Ms. Markeson at Kaiser Interstate. I asked Ms. Markeson to print out all of the Lab test order, but she refused. She wrote down on a piece of paper which included HIV testing. An order

Date was April 19th. I informed her I did not give consent to Dr. Antonio Daniel and I never seen this doctor. How can he order? She tries to conceal the fact by not printing out the Lab test order by Dr. Daniel. I refused to drawn the blood and they cancelled at 11:20am by Brady, Justin S

(D127088, ES): Note: Actual print out for this Lab Test was printed around 5pm same day at Cascade Park Lab.

2:15pm Appointment with Dr. Kono at Kaiser Interstate for Soar Throat/Sinus problem

He had Rapid Strep test. However, he did not wait until the result came back and he also prescribed Antibiotics Azithromicin 250mg tab in addition to Pseudoephedrine HCL 60mg tab. Doctor has prescribed only if I am positive on Rapid Strep Test in the past. I had several and all negative. The test only takes about 30min. Why did not wait and went a head?

Later by calling to Medical Board, I was able to confirm that you can have Oral test with HIV Test Kit by purchasing from pharmacy such as HIV 1&2 POCT (Point of Care Test) Kit. Another one is ORAQUICK for HIV test. Dr. Kono sign in at 2:20pm and signed out and discharged me at 3:10pm The test result at 3:44 pm according to the print out I requested at Cascade Park after I had another Dental treatment at Cascade Park Dental on same day. Lab technician wants to hide his/her name which is blacked out as showing on Rapid Strep Test Result print out. It seems to be Dr. Kono may have performed Oral HIV Test and may be technician did not want to get involve so she/he wanted to hide the name where all the medical records has names of Nurse, technicians, MA, and Doctors names are all documented in Medical Record.

April 23rd, 2013 - at Kaiser Sunnyside, Clackamas, Oregon

11am

DeAnn (Supervised Nurse) at Sunnyside Medical Clinic across the building from Kaiser Hospital, She informed me there is:

NO HIV CONCESNT FORM

NO ORDER FOR HIV TEST

NO HISORY OF HIV TEST

Made 3 print outs of orders. She said all the records are same as what I get at Medical Record Office. Lab Order Tracking Information dated 4/22/13 was printed out by Hodgkinson, Stephanie M, MA (see bottom of print ofor

1st print out Page 1 ALT, SERUM

2nd print out Page 1 LIPID PROFILE, NON-FASTING

3RD print out Page 1 BASIC METABOLIC PANEL

However, they did not print out HIV test order which I have copy printed out by Ms. Geri L (see bottom of print out) from Medical Record Department around 11:40 am after I met DeAnn and One other nurse. It she kept denying there was HIV test was ordered and no history.

There were actuary more oders with LIPD PROFILE W/ FASTING, POTESSIUM BLOOD, HEMOGLOBIN A1C, CREATININE, AND SERUM, MICROALBUMIN SCREEN URINE in

Addition to HIV and the print out giving by DeAnn. I did confirm with her again and again if there is HIV order and kept denying.

Note: While I was looking at all the Medical Records, I also found out Dr. Prasanna Krishnasamy went a head and did HIV testing on 1/14/2011 without consult and obtained written permission or consent from me which I found out on May 4th, 2013. Now it seems like Internal Patient had some kind of Negative comments about me or someone had contacted him to do HIV testing without my consent. It could be possibly started out from Legacy St. Helens Clinic Doctor, FNP and/or Manager because I know for sure that they are working with Ms. Cathi Callahan, an attorney for Ms. Maria Caroline, a mother of Mieko Okuda which concealment was going on every time Ms. Caroline violates Stipulated General Judgment (Court Order) /Mediated Parenting Agreement, a group of people have been concealed and trying to trick many ways to discourage me. In fact When Dr. Prasanna Krishnasamy refer to OHSU for my back surgery with Dr. Johnny Delashaw. Made me change cloths in Office, pack all personal belohgins in plastic bag, walk through with patient gown lobby area 20+ People, 7 hr to surgery, head nurse refuse to bring my lap top computer for over 1.5 hr, alleged loud voice. Called Police. left hospital w/o surgery-concerned

KAISER
PERMANENTE.

Rapid Strep Advice

Whether your tests results are Negative or Positive, if the symptoms worsen after 3 days or if a fever greater than 101.6°F persists longer than 3 days, please call the Advice Nurse at the Kaiser Permanente Medical Office of your choice. After regular business hours, on weekends or holidays, call 503-813-2000.

There is possibility that Kaiser -
DR Kono HAD informed Lab
to test HIV or He took my
sample ^{using} for ORAL HIV test KPT.

Why did he not give result for Strep Test
~~It~~ I had this test several times and
ONLY one time Positive → prescribed Antibiotics
But he went ahead and prescribe Antibiotics.

Relief of Sore Throat Symptoms

... for CHILDREN may
include:

- ✓ Increased fluid intake of water, juices, popsicles, hot diluted soup, and other warm liquids
- ✓ Cough drops, hard candies, and lozenges for children age 5 & up.
- ✓ Warm saltwater gargles for children age 5 & up. Add 1/4 tsp salt to 4 ounces of warm tap water.
- ✓ Use Tylenol® for discomfort and fever.

Relief of Sore Throat Symptoms

... for ADULTS include all
those for children, and:

- ✓ If you smoke, stop. Smoking is an added irritant to your throat. If you've wanted to quit smoking, this may be a good time to try. For smoking cessation counseling, contact Tobacco Cessation Services at 503-240-4095.
- ✓ Try anesthetic sprays and lozenges such as Chloraseptic® or Cepastat®.

Patient Instructions

It was a pleasure to see you today.

Hope you are better soon.

Your Kaiser Permanente Care Instructions

Sinusitis: After Your Visit

Your Care Instructions

Sinusitis is an infection of the lining of the sinus cavities in your head. Sinusitis often follows a cold and causes pain and pressure in your head and face.

Antibiotics can help cure sinusitis caused by bacteria. You should begin to feel better within a couple of days, but some symptoms may last for a month or more. If your doctor thinks that you have a bacterial infection, he or she will probably prescribe antibiotics.

Health Issues Reviewed (continued)

DIABETES TYPE 2

After Visit
Summary
by Dr. Kono

Medications

Start/Continue Taking

Pseudoephedrine (SUDOGEST) 60 mg Oral Tab	Take one-half to one tablet by mouth every 6 hours as needed for congestion
Azithromycin (ZITHROMAX) 250 mg Oral Tab	Take 2 tablets by mouth today then take 1 tablet by mouth days 2 to 5 for sinus infection
Simvastatin (ZOCOR) 20 mg Oral Tab	Take 1 tablet by mouth every evening for cholesterol
Lisinopril (PRINIVIL/ZESTRIL) 2.5 mg Oral Tab	Take 1 tablet by mouth 1 time a day

Important Information About Refilling Controlled Substance Prescriptions

Federal pharmacy laws require that controlled substance prescriptions (examples: medications for pain, anxiety or insomnia) must have a handwritten signature of the prescriber. This may result in a longer processing time for your refills. Please contact your pharmacy to request refills, and allow several extra business days advanced notice for these medications (7 days for pain medication).

SUDOGEST 60 MG ORAL TAB is non-formulary.

This medication is not on our approved formulary and we do not stock it in our clinic pharmacies. Please contact our Mail Order Pharmacy at 1-800-548-9809 (press Option 4) to initiate your order. If mail order is not an option for you, please contact the Kaiser Permanente clinic pharmacy of your choice and allow 7 days to special order.

For medications to be administered in clinic (e.g., IV meds): Please contact your clinic's nurse treatment center to arrange for administration.

48

In the privacy of your own home the rapid one step HIV self testing kit will determine your HIV 1 and 2 infection status, including subtype O and all other known antibodies within five to fifteen minutes maximum. The results are 99.9 to 100% accurate.

Benefits

The Advanced HIV Test Kit is inexpensive, confidential, private, anonymous, simple and safe to use, delivering accurate results within minutes at home.

Having doubts about your HIV infection status

Should I test for HIV?

Yes, if you believe that you may have been exposed, to do nothing and be fearful of the unknown possibility of being infected is the worst possible choice. Delaying HIV testing could potentially be extremely harmful to yourself and others if indeed you are HIV positive.

When should I test for HIV?

As soon as possible (14 to 22 days) after the suspected initial exposure and repeated up to two or three times during the window period. The transition from HIV to AIDS is a lengthy and

The first in-home oral HIV test

- Trusted: The only first in-home, non-injection, non-blood test.
- Fast: Results in 20 minutes.
- Oral: A quick oral fluid sample, no blood required.

Message [11701876]

From Aaron Y Okuda
 To Matsumura, Andrea L, MD (P 28113)
 Composed 10/23/2012 5:02 PM
 For Delivery On 10/23/2012 5:02 PM
 Subject RE: Part 5 last
 Message Type Patient Medical Advice Request
 Read Status Y
 Message Body Dear Dr. Matsumura

As I informed you many times that I am not comfortable how Mental Health Department is handling my referral.
 I specifically requested to be refer to Counselor in Vancouver or Longview WA and I though you made that referral about 3 months Ago. Meantime, I tried to have counselor at other resource, but Did not work out so I tried to get referral thorough Mental Health Department. They refuse to do so. I met supervisor At Patient Check in at Interstate Central and contacted your office for referral Because Member service or Patient Check in staff was not Able to contact people in your office for referral.
 After supervisor contacted you fro referral, Mr. Micheal House Called and left the message and said he received request on referral For psychiatrist medication Evaluation. He informed me to Contact primary physician which is you. I made an last two Appointments for my allegy (cold). However, you made a referral to Psychiatrist Medication evaluation.

Refuse to Refer to Vancouver Longview
Refuse to Refer another counselor

These recommendations are based on information regarding your general health, your age, and national guidelines for preventive care. Your clinician may determine that you need these tests more or less frequently.

Our records indicate you are due for the following:

Lab tests—Please bring this chart with you to any Kaiser Permanente laboratory. Most medical offices provide lab services between 8 a.m. and 5 p.m. Monday through Friday. Fasting is not required for any of these recommended lab tests. Your clinician may schedule additional tests for you. Please check with a lab representative when you come in.

Test	About this test	Test code - for lab use
Blood tests		
Diabetes monitoring test (HbA1c)	This test measures average blood glucose levels. Generally lower levels are better, and for most patients a level under 7 is best.	2921552
Potassium level	Potassium (K+) helps nerves and muscles communicate. Some medications and certain illnesses can cause potassium levels to be too high or too low. It is important to have your potassium level checked regularly.	2921259
Kidney function test (creatinine)	Creatinine is a waste product carried in the blood. This test measures how well your kidneys are functioning to remove creatinine.	2921236

Complaint - Medical Professional
Legacy Emanuel Medical Center
St. Helens Clinic Urgent Care

Claim Against: Madalene C Anderson, FNP

1) January 15th (Tue), 2013

Madalene C Anderson, FNP Medical Examed: Mieke Okuda

Investigation requesting If this is Cover up for the mother being child abuse for not taking to Medical Professional for treatment. Also if it is right medication for her Health condition due prescribe very strong and has Codeine/narcotic Medication to 7 years old minor child.

Mieke was taking to Urgent Care sometime after school.
Medication that prescribe by M. Anderson, FNP was "CHERATUSSIN AC SYRUP".
According to pharmacist, it is very strong medication. It has CODEINE. The medicine is a narcotic cough suppressant and expectorant combination used to treat cough due to colds or flu.

Highlight of Facts

1. M. Anderson, FNP prescribed "CHERATUSSIN AC SYRUP"
Has Codeine/narcotic
2. Office Manager gave excuse. Never Called or meet me to discuss Mieke's Health being.
3. The Nurse refuse to share any medical information
Used excused because of HIPPA and we do not know you are father
Although I had Court Paper and Drivers License ID.
4. Ms. Caroline, Mieke's mother did not allow me to talk. Not being able to Confirm her health condition. Especially ever time she use "Mieke being Not feeling good".
5. Mother said she has a fever. She did not say she has serious cough or coughing. Medication for Fever was not given? Why medicine for Cough only.
6. Ms. Caroline, Mother always refuse to take Mieke to Medical Professionals. Previously Mother informed me "You dn't take a child to urgent care just because she does not feel good. It is not an emergency, urgent care is for emergency. This is every time the mother refuse to Drop off with me when it is my parenting time.
7. Possible cover up like Columbia County Mental Health Clinic based on all Information I gather.
8. Sick excuse always happen on my pick up days and I believe when mother is off from work on most of Mondays and Fridays? Need to Confirm.

Mother's Statement: Text Message. Miekko had a FEVER

- No medicine was prescribed for FEVER.
- Miekko was not coughing around 10:35am - 10:50am on January 15th (Tue)
- No reporting on Miekko being sick or Coughing in the class on January 15th Confirmed by Lewis & Clark Elementary School Principal.
- Medicine that prescribed by M. Anderson FNP was very strong. According to pharmacist, it is for very serious cough. It contains Codeine and narcotic. Why M. Anderson FNP gave Miekko such a strong Medicine?
- Addressed concerned with Miekko's Mother not taking her to Urgent Care after 5 days with Office Manager, Joyce at Legacy Clinic in St. Helens on Tuesday, January 15th around 3pm. After that Mother took Miekko to Legacy Clinic. In Past the mother has history of refusing to take Miekko to Urgent Care Or Emergency Room. See attached Text Message. Question is why after I spoke to an Office Manager. I am confident that Office Manager, Joyce Contacted someone either directly or indirectly contacted Ms. Caroline's Attorney, Ms. Cathi Callahan who is former Prosecutor and she must have Contact Ms. Caroline to have medical attention because it looks like it is Child abuse for not having medical attention especially after 5 days being sick if it is true.
- On January 16th (Wed), I went back to Urgent Care around 3pm. Went to regular clinic and asked for an Office Manager, Joyce. They said she is in the meeting and do not know when she come out of the meeting. However, after I went to Urgent Care in the parking lot about 15 min later, I saw 2 rooms with one with Meeting Room and no one in the room. Right Next room was an office and one person was sitting at the desk, where I am confident that that was an Office Manager's room. Seem to be ignoring.
- I asked for attendant physician for Miekko when she was exam on January 15th (Tue). It was M Anderson but I was told she is not working. Need to find out if she was really not working that day.
- Nurse at Urgent Care refused to share any information about Miekko when she was discharged information including what kind of medicine did she prescribe, health condition, etc. She said she can not disclose because of HIPPA law. I tried to show my "Stipulated General Judgment" that includes I have right to access information. She said I do not know if you are her parent even though, I showed my Driver's License ID. She takes my name and phone number and have Office Manager, Joyce call me. Office Manager, Joyce never called me regarding my daughter's Health. I have responsibility looking over her, especially it should to be under my care.
- On January 21st (Mon) Mother did not bring Miekko for my parenting time. No respond. Has witness. See attach. M L K day.
- On January 22nd (Tue) Visited Miekko during lunch 10:35am-10:45am. Miekko said she was fine. She knows mother did not allow her to see me. She said she did not take any medicine and no coughing.

- There is a history that Columbia County Mental Health Clinic in St. Helens Did not see Mieko when Mieko had Parental Alienation. Counselor Did not want to hear anything about the mother's behavior and video tape on Mieko being Alienated. After several month from Feb. 2010 to Sept. 2010, I took series of video showing Mieko being Alienated by Mother and Day care person who was receiving \$400-\$500 per month for day care work from DHS. I sent all videos to Counselor at Community Action Team who teaches Court appointed High Conflict Divorce Class. Child Care person was immediately fired with in a week.
- about half of Legacy Clinic women are divorce and they have misconception about men or against man according to my friend's neighbor who works at this clinic.
- Ms. Caroline, Mieko's mother never allowed me to speak to my daughter Mieko who is a patient, especially when she use excuse that "Mieko being not feeling good".

There is a history of refusal of treatment by M Anderson FNP

I also like to file complaint regarding consider abandment of treatment on Shooting noise in head. She only wanted to treat my Ankle. She was Rough and look exhausted and nervous when I had medical examination. She said "I am VERY BUSY". I was shocked to hear that any Medical Provider, Medical Professional would state like that. I never had shooting noise in my head. Only ear ringing. What if it is something that happen to brain. This is one of the reason I went to urgent care to find out. I certainly do not agree and no excuse for Medical Professional to say "I am VERY BUSY".

She noted that I was very angry. However I would like to make clear that I did not scream or yell. Or never try to harm other. I just left the clinic and went to OHSU Emergency Room for treatment. Comment in Medical Chart like "He then asked for my name and eloped very angry" caused another Doctor, Dr. Rebbekha Keeaokalani Tippetts MD to be bring in Police Office in patient room about 15 ft x 12 ft? and officer standing at the entrance door and Doctor sitting right across from him about 4 -5 feet away from them really intimate me with no privacy. Legacy Emmanuel Hospital has pressure to sign paper something I do not agree on Financial Terms especially I was on OHP insurance

That patient does not have any financial responsibility. Right before I see this doctor, I went to Emergency Room in Salmon Creek, WA. for Anxiety reaction treatment, No police officer came in to patient room. Actually they were very professional and courteous. Another Doctor name Krishnasamy, Prasanna, MD also noted something like I had confrontation at the office and I always late with 2 no shows. However he himself always delay seeing me more than 30min to 1 hr. and I had to reschedule my other appointments for few occasions. He was actually hyper and spoked loud voice when I had conflict at front desk asking for Dr. Krishnasamy to be on time, especially they have been

very demaded patients. He also did not follow up with referring to specialist for my back problem and possible surgery. I ended up having several months late due to lack of professional treatment.

In additional I had some issue at Legacy Clinic in St. Helens with Dr. Murry's Nurse (I Believe his name is Craig but he no longer work there. He is male nurse and big) in 2010 or latest day that I have seen Dr. Murry. I was late on two appointments by 5-10min. after grace time Of 15 min. I left message with Dr. Murry's Nurse, Craig? Did not relay my important message and when I try to talk to him about my message, he took me to patient's exam room and start to posturing and yelling at me about being late and that I complaint about him at Legacy Emmanuel Hospital Patient Relations. I appoligized more then several time being late, but he kept going for several minutes yelling at me in the patient's room. Legacy never write me back letters regarding my complaint on Their St. Helens Clinic and Medical Group Krishnasamy at Emmanuel Hospital. I found that patients file complaints, they get really fire back at you, instead of admitting the facts and they write in comments that questioning about the patients and go against the patients. It will be more reluctant for patients to go to that clinic again.

History:

January 11th and 14th, 2012

I found out Mieko was on Sick leave on Jan. 11th (Fri) and 14th (Mon).

She called School on Jan 11th but not on Jan 14th. (Gave note on Jan 15th (Tue)).

I see there is a pattern that Ms. Caroline uses Sick Leave to Lie to the School.

Fridays and Mondays seems to be Ms. Caroline's Holiday after examining the patterns. She also did refused dropping off on Fridays as well. I checked with Legacy Clinic (Urgent Care/Doctor's office) in St. Helens, but there is no record showing Ms. Caroline brought Mieko for Medical Attention especially on Jan 14th with in 4 days that Mieko should seek doctor. Mieko did not respond to me if she was not feeling well on Monday when I had lunch with her on January 15th (Tue).

January 11th, (Fri) Mieko was Sick Leave. Not at the School.

January 14th (Mon) Mieko was not at the School. Mother did not call in Sick Leave for Mieko

January 15th (Tue) Mieko was at the School, ate lunch together. Mother gave note to school for Sick Leave

January 16th (Wed) Mieko was absent at the School. The Lewis & Clark Secretary Informed me that the school did not get any note from Mieko's mother.

Mother send Text message 1 hr before pick up time and text me that she took Mieko to Urgent care because Mieko has fever. However Jan. 16th is my parenting time. She text message and said she took her to Urgent Care. I went to Legacy Clinic in St. Helens, OR around 3pm.

At the Legacy Clinic in St. Helens (regular clinic), I asked for Office Manager. I was told that she is in the Meeting and do not know when she will be free. I was told to go to Legacy Clinic Urgent Care. Spoked to the Nurse. I asked her that I would like to get information of Medical Record that what nature of examination and what doctor has subscribe medication and discharge information. I tried to show my ID and the Court Paper "Stipulated Judgment". Nurse refuses to see and said It is against HIPPA law and we do not know if you are parent and I have to refer you to Joyce, Office Manager. She took my contact number but Joyce never called. While I was walking to my car, I saw two windows with one with meeting room but no one is there. In another room one person sitting at the office. I did not see any other people.

I met Joyce, Office Manager on January 15th regarding my concern about my daughter for about 10 – 15 min. explaining what is going on with her mother. One of the concern is Mother did not take Mieko to school on Friday 11th, and 14th. On 15th, Mieko was at Cafeteria and she looks fine, but she did not respond to my question why she did not come to school on Monday. It seems to be the mother brought Mieko after I informed Joyce, Office Manager at Legacy Clinic. She must called someone and that person must called Mother's Lawyer to come to the clinic.

On January 18th (Friday) – I spoked to St. Helens District Lewis & Clark Elementary School Principal and found out there is no report on Mieko Health condition from Mieko's Teacher. Mieko was fine and she did not complaint any health issue or she was not coughing when I visited during her lunch hour.

Mieko was taking to Urgent Care sometime after school. Medication that prescribe by M. Anderson, FNP was "CHERATUSSIN AC SYRUP". According to pharmacist, it is very strong medication. It has CODEINE. The medicine is a narcotic cough suppressant and expectorant combination used to treat cough due to colds or flu.

Mother has history of using an excuse as "Mieko is not feeling good. She is staying with me".

However, I am trying to get medical record seen by Dr. Anderson. FNP

I called mother that I want to talk to Mieko but she did not call and around and text message at 7:04pm. that she is sleeping Text Message Jan 16 @ 11:47am "mieko had a fever. I took her to urgent care already. She needs to rest and pass 24 hours from fever. She is staying wit home till she gets better."

January 17th 2012

I asked her to call me back next morning. I left message again at 10:20 am to remind her to call me.

YOUR PERSONAL PRESCRIPTION INFORMATION

Your Walgreens Pharmacy Location

175 South Columbia River Hwy
St Helens, OR 97051
(503)397-7862

IF YOU HAVE QUESTIONS ABOUT YOUR PRESCRIPTION, PLEASE CONTACT YOUR WALGREENS PHARMACIST OR CALL 1-800-WALGREENS.

PATIENT	MARIE OKUDA	DOCTOR	M. ANDERSON, FNP	DRUG DESCRIPTION
BIRTH DATE	12/14/05			
MEDICATION	CHERATUSSIN AC SYRUP			
QUANTITY	120	PATIENT ALLERGIES		LIQUID
DIRECTIONS GIVE "MARIE" 5 ML BY MOUTH THREE TIMES DAILY AS NEEDED FOR COUGH				LIGHT PINK

INGREDIENT NAME: GUAIFENESIN (gwye-FEN-e-sin) and CODEINE (KOE-deen)

COMMON USES: This medicine is a narcotic cough suppressant and expectorant combination used to treat cough due to colds or flu. It may also be used for other conditions as determined by your doctor.

BEFORE USING THIS MEDICINE: Some medicines or medical conditions may interact with this medicine. INFORM YOUR DOCTOR OR PHARMACIST of all prescription and over-the-counter medicine that you are taking. DO NOT TAKE THIS MEDICINE if you are taking sodium oxybate. ADDITIONAL MONITORING OF YOUR DOSE OR CONDITION may be needed if you are also taking anticholinergics (such as hyoscyamine), cimetidine, HIV protease inhibitors (such as ritonavir), naltrexone, quinidine, or rifampin. DO NOT START OR STOP any medicine without doctor or pharmacist approval. Inform your doctor of any other medical conditions including if you have been very ill, or if you have a history of alcohol or substance abuse; breathing problems (such as asthma, emphysema, or chronic obstructive pulmonary disease); chronic constipation; chronic cough; cough that produces large amount of mucous; growths in the brain; increased pressure in the brain; head injury; kidney, liver, or thyroid problems; stomach problems (such as severe inflammatory bowel disease); allergies; pregnancy; or breast-feeding. USE OF THIS MEDICINE IS NOT RECOMMENDED if you have diarrhea due to food poisoning or antibiotic use. Use of this medicine in children under age 2 is not recommended. Discuss with your doctor the risks and benefits of giving this medicine to your child. Contact your doctor or pharmacist if you have any questions or concerns about using this medicine.

HOW TO USE THIS MEDICINE: FOLLOW THE DIRECTIONS for using this medicine provided by your doctor or on the package. DO NOT EXCEED the recommended dose. TAKE THIS MEDICINE with food. TO HELP THIS MEDICINE LOOSEN CONGESTION, drink a glass of water or other liquid with each dose of medicine unless directed otherwise by your doctor. STORE THIS MEDICINE at room temperature in a tightly-closed container, away from heat and light. IF YOU MISS A DOSE OF THIS MEDICINE and you are using it regularly, take it as soon as possible. If it is almost time for your next dose, skip the missed dose and go back to your regular dosing schedule. Do not take 2 doses at once.

CAUTIONS: DO NOT TAKE THIS MEDICINE if you have had an allergic reaction to it or are allergic to any ingredient in this product. DO NOT TAKE THIS MEDICINE IF YOU HAVE HAD A SEVERE ALLERGIC REACTION to codeine, hydrocodone, dihydrocodeine, or to oxycodone. A severe allergic reaction includes a severe rash, hives, breathing difficulties, or dizziness. If you have a question about whether you are allergic to this medicine or if a certain medicine contains codeine, hydrocodone, dihydrocodeine, or oxycodone, contact your doctor or pharmacist. IF YOU EXPERIENCE difficulty breathing; tightness of chest; swelling of eyelids, face, or lips; or if you develop a rash or hives, tell your doctor immediately. Do not take any more of this medicine unless your doctor tells you to do so. DO NOT EXCEED THE RECOMMENDED DOSE or take this medicine for longer than prescribed. Exceeding the recommended dose or taking this medicine for longer than prescribed may be habit-forming. IF YOUR COUGH CONTINUES for more than 7 days, or if you develop a high fever or persistent headache, check with your doctor. THIS MEDICINE MAY AFFECT CERTAIN LAB TEST RESULTS. Make sure laboratory personnel and your doctors know you use this medicine. BEFORE YOU HAVE ANY MEDICAL OR DENTAL TREATMENTS, EMERGENCY CARE, OR SURGERY, tell the doctor or dentist that you are using this medicine. AVOID ALCOHOL while you are using this medicine. THIS MEDICINE WILL ADD TO THE EFFECTS of alcohol and other depressants (such as sleep aids or tranquilizers). Ask your pharmacist if you have questions about which medicines are depressants. THIS MEDICINE MAY CAUSE drowsiness or dizziness. Do not drive, operate machinery, or do anything else that could be dangerous until you know how you react to this medicine. THIS MEDICINE MAY CAUSE DIZZINESS, lightheadedness, or fainting. Alcohol, hot weather, exercise, and fever can increase these effects. To prevent them, sit up or stand slowly, especially in the morning. Also, sit or lie down at the first sign of dizziness, lightheadedness, or weakness. BEFORE YOU BEGIN TAKING ANY NEW MEDICINE, either prescription or over-the-counter, check with your doctor or pharmacist. This includes other cough and cold medicines. CAUTION IS ADVISED WHEN USING THIS MEDICINE IN THE ELDERLY because they may be more sensitive to the effects of the medicine. FOR WOMEN: THIS MEDICINE MAY CAUSE HARM to the human fetus. IF YOU PLAN ON BECOMING PREGNANT, discuss with your doctor the benefits and risks of using this medicine during pregnancy. IT IS UNKNOWN IF THIS MEDICINE IS EXCRETED in breast milk. DO NOT

BREAST-FEED while taking this medicine.

POSSIBLE SIDE EFFECTS: SIDE EFFECTS that may occur while you are taking this medicine include drowsiness, dizziness, headache, nausea, vomiting, constipation, or stomach pain. If they continue or are bothersome, check with your doctor. CHECK WITH YOUR DOCTOR AS SOON AS POSSIBLE if you experience change in the amount of urine, facial flushing, involuntary muscle movement, mood or mental changes, or severe or persistent vomiting. CONTACT YOUR DOCTOR IMMEDIATELY if you experience fainting, irregular heartbeat, hallucinations, or slow or irregular breathing. An allergic reaction to this medicine is unlikely, but seek immediate medical attention if it occurs. Symptoms of an allergic reaction include rash, itching, swelling, severe dizziness, or trouble breathing. If you notice other effects not listed above, contact your doctor, nurse, or pharmacist. This is not a complete list of all side effects that may occur. If you have questions about side effects, contact your healthcare provider. Call your doctor for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

OVERDOSE: If overdose is suspected, contact your local poison control center or emergency room immediately. Symptoms of overdose may include slowed breathing, extreme drowsiness, deep sleep or loss of consciousness, decrease in muscle tone, cold and clammy skin, or slow pulse.

ADDITIONAL INFORMATION: If your symptoms do not improve within 5 days, if they become worse, or if you develop a high fever or persistent headache, check with your doctor. DO NOT SHARE THIS MEDICINE with others for whom it was not prescribed. DO NOT USE THIS MEDICINE for other health conditions. KEEP THIS MEDICINE out of the reach of children and pets. CHECK WITH YOUR PHARMACIST about how to dispose of unused medicine.

You may report side effects to FDA at 1-800-FDA-1088.

Do not flush unused medications or pour down a sink or drain.

The following information is intended to supplement, not substitute for, the expertise and judgment of your physician, pharmacist or other healthcare professional. It should not be construed to indicate that the use of the drug is safe, appropriate, or effective for you. Consult your healthcare professional before taking this drug.

Cheratussin AC

Generic Name: codeine and guaifenesin (KOE deen and gwee FEN a sin)

Brand Name: *Allfen CD, Allfen CDX, Brontex, Cheraçol with Codeine, Cheratussin AC, Codar GF, Dex-Tuss, Diabetic Tussin C, Duraganidin NR, ExeClear-C, GuaiaTussin AC, Guaifen-C, GuiaTuss AC, GuiaTussin with Codeine, Iophen-C NR, M-Clear, M-Clear WC, Mar-cof CG, Mytussin AC, Robafen AC, Robitussin-AC, Tussiden C, Tusso-C*

What is Cheratussin AC (codeine and guaifenesin)?

Codeine is in a group of drugs called narcotics. It is a cough suppressant that affects the signals in the brain that trigger cough reflex.

Guaifenesin is an expectorant. It helps loosen congestion in your chest and throat, making it easier to cough out through your mouth.

The combination of codeine and guaifenesin is used to treat cough and to reduce chest congestion caused by upper respiratory infections or the common cold.

Codeine and guaifenesin will not treat a cough that is caused by smoking, asthma, or emphysema.

Codeine and guaifenesin may also be used for other purposes not listed in this medication guide.

What is the most important information I should know about Cheratussin AC (codeine and guaifenesin)?

Ask a doctor or pharmacist before using any other cough or cold medicine. Guaifenesin is contained in many combination medicines. Taking certain products together can cause you to get too much guaifenesin. Check the label to see if a medicine contains an guaifenesin, or an expectorant.

Codeine and guaifenesin may impair your thinking or reactions. Avoid driving or operating machinery until you know how this medicine will affect you.

Codeine may be habit-forming and should be used only by the person it was prescribed for. This medication should never be shared with another person, especially someone who has a history of drug abuse or addiction. Keep the medication in a secure place where others cannot get to it.

Do not give this medication to a child younger than 4 years old. Always ask a doctor before giving a cough or cold medicine to a child. Death can occur from the misuse of cough and cold medicines in very young children.

What should I discuss with my healthcare provider before taking

General Pediatric Clinic Note

SUBJECTIVE:

Mieko Okuda is a 7 year old female brought in by her Father.

Chief Complaint

Patient presents with

- Cold
no fever. no body aches

Dad brings in Mieko today due to concern that she may be ill. Was with mom last week and reportedly had cough and possibly fever. Currently asymptomatic-no cough, no runny nose, no sore throat, no ear pain, no fever/chills, no n/v, no diarrhea, eating and drinking normally, normal energy level, normal UOP. She describes the cough she did have as mild, non-productive without associated SOB. No smokers in either home.

Unknown immunization status; PCP unable to obtain after last visit.

ROS: negative except as stated above

PMH/PSH: reviewed and updated

FH: non-contributory

SH: Splits time between mom and dad; dad reports mom and dad are in conflict due to recent divorce and therefore Mieko's health care is a bit sporadic. Dad has multiple questions about his rights to obtaining health information for Mieko.

MEDS:

No current outpatient prescriptions on file.

ED COURSE / MDM:

Patient presented today w/ complaint of ankle injury

Exam was done and I recommended Xray which he agreed to.

He then began to discuss problem he has been having for a month related to "electrical" device that is being used for an OJI

For the past month he has been hearing a noise in head, a shooting noise as well as ringing in his ears and feeling off balance, denies hearing changes.

He has been seen at Concerta but indicated he did not want to go back.

He is also seeing an MD who is referring him for surgery on his back at OHSU.

I indicated to patient I was happy to evaluate his urgent problem and evaluate the noise in his head issue but told him he needed to follow up with his previous providers about his OJI claims.

I explained we are an urgent care and I would deal with the urgent issues, I explained we were very busy. (we were working on a STEMI pt while he was here) He became very angry saying I should not tell a patient I am busy.

He then asked for my name and eloped very angry.
